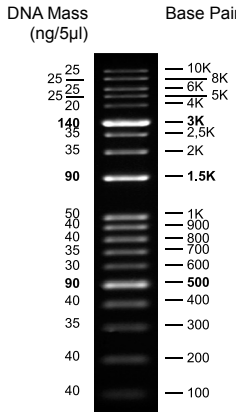
PCRBIO **DNA Markers**

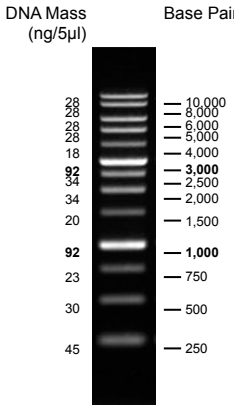
- Ready to use
- Room temperature stable
- Quantitative



1.5 % TAE agarose gel

- PCRBIO Ladder I

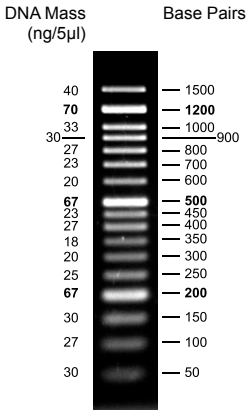
PB40.11-01



1 % TAE agarose gel

- PCRBIO Ladder II

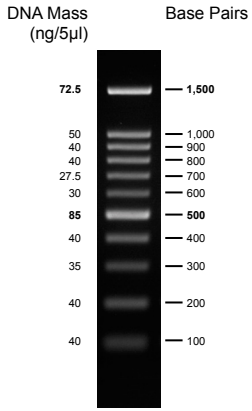
PB40.12-01



2 % TAE agarose gel

- PCRBIO Ladder III

PB40.13-01



1.7 % TAE agarose gel

- PCRBIO Ladder IV

PB40.14-01

PCRBIOSYSTEMS
simplifying research

PCRBIOSYSTEMS
simplifying research

Features

- Ready to use – load straight onto your gel
- Room temperature stable – store at +25 Celcius
- Quantitative – helps to visualise PCR yield
- Wide range – 50bp to 10kb
- Evenly spaced bands
- Easy to identify reference bands

Environmental Note

Because the PCRBIO Markers are room temperature stable we negate the need for cold temperature shipping. This reduces your carbon footprint to help maintain a healthy world, plus it saves you money.

Cat Number	Product Name	Pack Size
PB40.11-01	PCRBIO Ladder I	100 lanes
PB40.11-05	PCRBIO Ladder I	500 lanes
PB40.12-01	PCRBIO Ladder II	100 lanes
PB40.12-05	PCRBIO Ladder II	500 lanes
PB40.13-01	PCRBIO Ladder III	100 lanes
PB40.13-05	PCRBIO Ladder III	500 lanes
PB40.14-01	PCRBIO Ladder IV	100 lanes
PB40.14-05	PCRBIO Ladder IV	500 lanes
